

The Rochester Area Society of Health-System Pharmacists

2.0 Credit Hour CE Program

Saturday, November 14th 2020

9:00 am – 11:00 am

Location: Virtual format

Residency Symposium: Pharmacy Clinical Pearls

Presenters:

Samantha Aierle, PharmD
Haley Rose Bajdas, PharmD
Mikaela Brown, PharmD
Elizabeth Cusack, PharmD
Alysa Martin, PharmD
Kristen Poteat, PharmD

Objectives

Bystanders to the Rescue: A New Way to Reverse Hypoglycemia (Samantha Aierle, PharmD)

Pharmacist Learning Objectives

1. Evaluate intranasal glucagon efficacy and safety profile
2. Compare the differences between intranasal and intramuscular glucagon

Technician Learning Objectives

1. Identify the need for alternative routes of administration of glucagon
2. Differentiate intranasal glucagon from intramuscular glucagon

A Tale of Two Toxicities: Massive, Late-presenting Acetaminophen Ingestions (Haley Bajdas, PharmD)

Pharmacist Objectives

1. Explain the benefit of n-acetylcysteine (NAC) in the management of acetaminophen (APAP)- induced fulminant hepatic failure
2. Identify appropriate use of fomepizole in APAP ingestions

Technicians Objectives

1. Describe the mechanism of action for NAC and fomepizole in acetaminophen toxicity
2. List the suggested doses for NAC and fomepizole in acetaminophen toxicity

DDAVP for Antiplatelet Reversal in the Setting of Intracerebral Hemorrhage (Mikaela Brown, PharmD)

Pharmacist Learning Objectives

1. Describe the role of DDAVP in intracerebral hemorrhage
2. Assess the current literature regarding the use of DDAVP in intracerebral hemorrhage.

Pharmacy Technician Learning Objectives

1. Identify risk factors for the development of intracerebral hemorrhage (ICH)
2. Describe the proposed mechanism of DDAVP in ICH

Examining the role of Direct-Acting Oral Anticoagulants (DOAC) in Management of Heparin Induced Thrombocytopenia (HIT) (Elizabeth Cusack, PharmD)

Pharmacist Learning Objectives

1. Evaluate literature surrounding use of direct-acting oral anticoagulants in HIT
2. Devise a medication regimen using a DOAC for a patient with HIT

Technician Learning Objectives

1. Describe the pathophysiology of HIT
2. List direct-acting oral anticoagulants that have been studied for treatment of HIT

Wait, Which Weight is the Right Weight? Antibiotic Dosing in the Obese Patient (Alysa Martin, PharmD)

Pharmacist Learning Objectives

1. Describe the pharmacokinetic changes that occur in obese patients and their impact on antibiotic exposure
2. Analyze current literature regarding different dosing strategies in obese patients

Technician Learning Objectives

1. Identify antimicrobial agents that are affected by body weight
2. Recognize common dosing strategies for obese patients

Management of Behavioral and Psychological Symptoms in Dementia (BPSD) (Kristen Poteat, PharmD)

Pharmacist Learning Objectives

1. Produce a tailored medication regimen for a patient with BPSD based on best available literature
2. Evaluate the risk versus benefit for the use of antipsychotics in this population

Technician Learning Objectives

1. Identify common medications used for BPSD management
2. Explain the challenges with using these medications in the elderly population

How to Register:

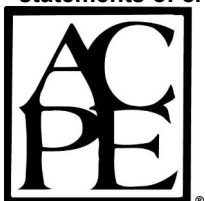

- Please use your PayPal account through our website at www.rashp.org to pay and register for the event. If you have any questions please email kara.cutiaia@rochesterregional.org. **Reservations must be made by Friday, November 13, 2020.**
- If you register for the meeting, but cannot attend, please notify RASHP ASAP to avoid chapter charges.
- Please note that all attendees will have 45 days from the date of the program to process their CE.

Fees:

- **RASHP Member Live Webinar- (\$10)**
- **WSOP Student Members and Technicians - (\$5)**
- **Non-RASHP Member Healthcare Professional Requesting CE - (\$15)**

This program is appropriate for pharmacists, technicians, nurses, physicians, dentists and other health care professionals. This program is a knowledge-based continuing professional education activity (CPE) where pharmacists and technicians acquire factual knowledge based on evidence as accepted in the literature by health care professions. This program is sponsored by RASHP.

The NYS Council of Health-system Pharmacists is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education. These programs (0134-0000-20-172-L01-P, 0134-0000-20-172-L01-T) are approved for 2.0 contact hours. **Statements of Continuing Pharmacy Education Credit are available by survey links given after the program. Participant must verify attendance at the meeting by entering the program CE code. Attendees have forty five (45) days to evaluate the program and obtain their statements of credit**

Payments to NYSCHP are not deductible as charitable contributions for federal income tax purposes. However, they may be deductible under other provisions of the Internal Revenue Code (i.e., ordinary, necessary business expenses; miscellaneous itemized deduction).
